## LIBERTY'S

## GARDEN POTTERY

IN ARTISTIC FORMS  
FOR PRACTICAL USE.

MADE of a porous clay which withstands frost. The broken colour effect is obtained by using wood fuel in the furnace. The surface gradually assumes a pleasing weather-stained appearance with exposure.

THE forms of ornamental pottery intended for horticultural use are generally unsatisfactory from the plant-growers' point of view. But, with this new pottery, the first consideration has been utility . . . .
